

## **PROJECT UHURU**

### **DRC**

This is the arm of our international operation which is geared to reaching out to the less fortunate ones, child prostitute, victims of abuse, refugees, Child Soldiers, the old in the community.

#### Outreach Focus:

We have a multiplied variety of operations, and one of such focus has been in reaching out to the homeless, refugees, etc who for obvious reasons have found it difficult to integrate into the community. Some of the reasons have been lack of education resulting in unemployment etc.

#### Project Outline:

Our focus in this regard is to equip by educating through practical training and providing various assistance that facilitates the integration of the concerned. Providing material, psychological, socio-spiritual, support to them. This assistance will increase their potentials and better their self worth, which will contribute immensely to the micro and macro communities.
